

DAY TWO: 26th November:

Elimination of Female Genital Mutilation

FGM also known as female genital cutting and female circumcision, is the ritual cutting or removal of some or all, of the external female genitalia. The practice is rooted in gender inequality, attempts to control women's sexuality, and ideas about purity.

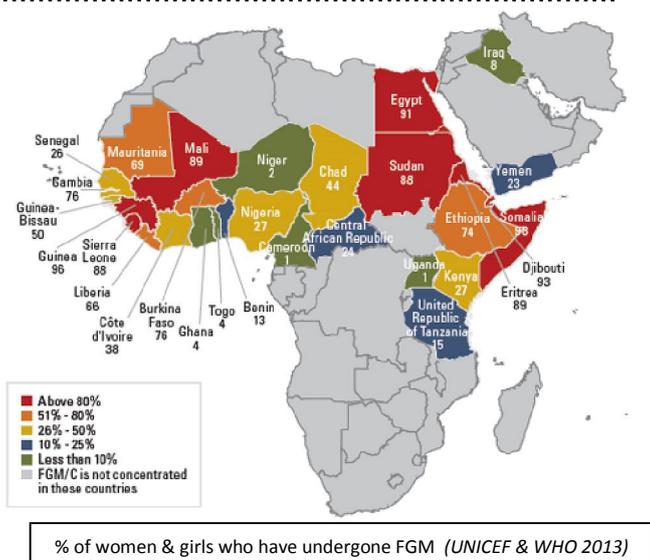

Fatima's story

Fatima lives in Somalia with her family where she attends a school nearby. Her mother is a seamstress. Fatima, at 6 years of age, had a visit from her grandmother. All was pre-arranged and Fatima didn't know what was happening. *'They held my shoulders and knees, and I started crying and trying to close my legs. It was very terrible. I can never forget that. I was at home for seven days with acute pain in the area they cut. Don't do this to your daughters.'* (Source: www.unicef.org/somalia)

Question:

What is my reaction to this true story?

.....

Global Facts

- ✚ 200 million girls and women alive today have undergone FGM
- ✚ 3 million girls are at risk of undergoing FGM annually
- ✚ Girls 14 and younger represent 44 million of those who have been cut, with the highest prevalence of FGM occurring in Africa.

Laudato Si - Pope Francis:

'Cry of the Earth, Cry of the Poor'

'Each human being is a subject who can never be reduced to the status of an object' L.S.81

Beijing+20 2015

reaffirmed a major obstacle to ending violence against women, is the persistence of discriminatory attitudes and social norms that normalize and permit violence. Victim blaming attitudes are widespread across all countries.

UNICEF with UNFPA (UN Population Fund) co-leads the global programme towards the elimination of FGM. It works with governments, communities, religious leaders and other partners to end the practice.

UN Sustainable Development Goals

SDG 5.3: *'Eliminate all harmful practices, such as child, early and forced marriage and female genital mutilation.'* This target reflects the international community's commitment to ending FGM by 2030.
